Job Description:

The Planetary Science Institute (PSI) is currently seeking a software developer to assist migrating the timesheet system to cloud hosting.

Note: Management may assign or reassign duties and responsibilities to this job at any time.

The skills, knowledge, and minimum qualifications required for this position are as follows:

- Java web app development.
- Tomcat server.
- Database development (PostgreSQL preferred).
- Shell scripting.
- OAuth2 or other access delegation protocols.
- Gitlab/Github
- Development in and for a cloud-hosted service.

To apply for the position:

If you are interested in applying for this position and you meet the required qualifications for the opening, please submit the following documents to apply@psi.edu:

- A cover letter that addresses your interest and qualifications for this position.
- Resume
- Completed Application and Voluntary Self-Identification form (can be found on www.psi.edu where this position is posted or by sending a request to apply@psi.edu).

PSI is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or status as a protected veteran, or any other characteristic protected by law.
